PREFACE

California Prisoners and Parolees, 2010, is a presentation of statistical data about the adult felons, civil narcotic addicts and other populations under the jurisdiction of the California Department of Corrections and Rehabilitation (CDCR). Statistical data on felons in CDCR have been published since 1950 when the first issue of *California Prisoners*, covering the years 1945 through 1949, was released. Statistical data on civil narcotic addicts have been published since 1967 when the first issue of *Summary Statistics, Civil Commitment Program for Narcotic Addicts*, covering the years 1961 through 1966, was published. Beginning in 1981, the two were combined into one publication. In 2008, CDCR's publication *Historical Trends* was incorporated into this publication. *Historical Trends* described changes to CDCR's population over a 20 year time period.

This publication is organized into six sections containing information about different types of populations under CDCR jurisdiction. The Reference Guide provides a list of prisons by name and location; maps identifying counties, areas of commitment, and parole regions; and a glossary of terms and acronyms used throughout the publication.

The Chief Deputy Secretary of Adult Operations administered 33 prisons, four detention centers, four parole regions, and 42 camps during 2010. The types of commitments received by CDCR are felons, civil narcotic addicts, County Diagnostic Cases (under Penal Code Section 1203.03), some Juvenile Justice commitments, safekeepers, federal prisoners, and prisoners from other states. This publication contains only a portion of the data available in report format. If you have a request for additional data or have any questions regarding the presentation of these data, we can be contacted at:

TABLE 51A
DEFINITIONS FOR RECIDIVISM RATES FOR
FELONS PAROLED TO CALIFORNIA SUPERVISION
CALIFORNIA DEPARTMENT OF CORRECTIONS AND REHABILITATION
RELEASED TO PAROLE IN FISCAL YEAR 2007-08

Recidivist: A felon who returns to prison for any reason during a specified follow-up period.

Recidivism cohort: The number of felons first released to parole during a given year.

Recidivism rate: The ratio of the number of felons in the recidivism cohort who were returned to State-level custody during the recidivism period to the total number of felons in the recidivism cohort, multiplied by 100.

How California Department of Corrections and Rehabilitation (CDCR) calculates recidivism: CDCR uses returns to State custody as its primary measure of recidivism. State custody, or CDCR ‘return to prison’ is defined as follows: An individual convicted of a felony and incarcerated in a CDCR adult prison who was released to parole, discharged after being paroled, or directly discharged from CDCR during a defined time period and subsequently returned to prison during a specified follow-up period.
